

**LODI TOWNSHIP BOARD OF TRUSTEES
LODI TOWNSHIP PLANNING COMMISSION
JOINT WORK SESSION
WASTEWATER SYSTEM ALTERNATIVES:
PUBLIC VS PRIVATE SYSTEMS
JANUARY 10, 2007 – 7:00 P.M.
LODI TOWNSHIP HALL**

Board of Trustees Present: Godek, Masters, Foley, Crowner, Lindemann, Rentschler, and Radecki.
Planning Commission Members Present: O'Connor, Veenstra, Thelen, Crowner, and Swenson.
Other interested parties also present.

Vicki Putala P.E. from Orchard, Hiltz & McCliment, Inc., presented information concerning wastewater systems both public and private.

Key Elements included:

- Ownership and Construction
- Operation and Maintenance
- Billing
- Size
- Type of Wastewater
- Liability
- Cost

Concern was raised about whether construction of the system was reviewed by the DEQ. They review the plans, but typically don't look at the materials being used. We need to sure someone knowledgeable is on site during construction whether it would be a public or private system.

We must have plan, zone and service area.

Questions were discussed.

Session ended at 9:00 P.M.

Elaine E. Masters
Clerk, Lodi Township
